

Subject: Buffalo Sabres Data Scientist Position -- Decision

From: Ventura, Sam

to Samuel

Hello [redacted],

Thank you for applying to the Data Scientist position with the Buffalo Sabres, and for completing the Data Analysis Challenge. Over 30 candidates with a variety of backgrounds participated in the DAC, and we were extremely impressed with the quality of the responses we received.

Unfortunately, after reviewing all of the DAC submissions and application materials, **you were not chosen as a finalist for the Data Scientist position.**

If you are interested in receiving any specific (off-the-record) feedback on your DAC submission, please let me know. I know that you put in a lot of effort into this, so I am more than happy to give feedback if it is desired.

According to my records, you are still a potential candidate for the Data Engineer position. We are currently reviewing those applications and should be contacting the top candidates later this week.

Thank you again for participating in our application process for the Data Scientist. We wish you the best of luck in your career moving forward.

Best regards,

Sam
