

Subject: Buffalo Sabres Data Scientist Position -- Next Steps

From: Ventura, Sam

to Samuel

Hello [redacted],

Thank you for applying to the Data Scientist position with the Buffalo Sabres, and for completing the Data Analysis Challenge. Over 30 candidates with a variety of backgrounds participated in the DAC, and we were extremely impressed with the quality of the responses we received.

We are excited to inform you that you have been chosen to move onto the next round of the process! We were impressed with your DAC submission, and are excited to have you continue on to the interview process.

Tentatively, here is how the rest of the process will work:

1. Interview with Sam Ventura:

- This week, ideally
- 30-60 minutes
- This will be a technical interview
- This will be conducted via Zoom
- **TO DO: Choose a time slot here: [redacted]**
 - Note: My schedule is highly subject-to-change on short notice.
 - I have tentatively blocked off 12-6pm ET and 8-10pm ET on Tuesday, Wednesday, Thursday, and Friday this week.
 - I know this is short notice, so if none of these time slots work for you, just let me know, and we can find another day/time. This will not impact your candidacy in any way.

2. Interview with HR:

- TBD -- I will follow up about this
- This will be a traditional / non-technical interview
- This may occur after "final" candidates are chosen

3. Finalist candidates chosen

4. Interview(s) with others in Buffalo Sabres hockey operations

5. Final decision

Please let me know if you have any questions. I look forward to speaking with you soon!

Sam
