to Samuel

Hello,

Attached is the data analysis challenge. You have until Sunday at 9pm ET to complete it. Please send your response via email to me.

If you do not have time to answer all three questions, do not worry. If you can satisfactorily complete one of the three questions, you will still be considered. We are more concerned with the quality of your work – it would be better for you to provide one really good answer than half-effort answers to all three questions.

Please feel free to ask questions if you have them. I may not be able to answer them (as some questions are intentionally ambiguous), but it doesn't hurt to ask. In particular, some hockey-specific lingo is used in the attached document. Please feel free to ask for clarification on any terms you do not know.

Other than the above, all instructions and information is in the attached PDF file. The data is in the attached CSV file.

Good luck,

Sam
